

DR. PRASANNA Y KATTI

Senior Consultant - Interventional Cardiology

Qualification

MBBS | MD (Internal Medicine) | DM (Cardiology)

Overview

Dr. Prasanna Y. Katti is an experienced interventional cardiologist in Bangalore. He is currently practising as a Senior Consultant - Interventional Cardiology at Manipal Hospital Yeshwanthpur, Bangalore. Dr. Prasanna Y Katti brings over a decade of advanced cardiovascular expertise, offering specialised care in adult and paediatric cardiology. With a strong academic foundation that includes an MBBS, MD in General Medicine, and DM in Cardiology, he is widely recognised for his clinical acumen and dedication to delivering high-quality, evidence-based cardiac care. At Manipal Hospital, he plays a pivotal role in managing a wide range of cardiovascular conditions, from routine diagnostics to complex coronary interventions, making him one of the best interventional cardiologists in Yeshwanthpur, Bangalore. Dr. Katti’s core strength lies in performing radial approach coronary interventions, where he routinely conducts diagnostic coronary angiograms and percutaneous transluminal coronary angioplasty (PTCA) procedures with high success rates. His preference for the transradial approach, known for its lower complication rates and faster recovery, underscores his commitment to patient safety and

comfort. He performs both elective and emergency primary coronary angioplasties, often in critical, time-sensitive scenarios such as acute myocardial infarction. His expertise includes managing complex coronary artery disease cases, such as left main coronary artery (LMCA) stenting, bifurcation lesions, chronic total occlusions (CTO), and multivessel stenting. Dr. Katti's procedural skills are backed by a deep understanding of cardiovascular pathology and a personalised approach to treatment, ensuring optimal patient outcomes, making him one of the best interventional cardiologists in Yeshwanthpur, Bangalore. In addition to coronary interventions, Dr. Katti is trained in structural heart procedures and device therapy. He performs transcatheter closure of congenital heart defects, including atrial septal defect (ASD), ventricular septal defect (VSD), and patent ductus arteriosus (PDA). He also specialises in the implantation of permanent pacemakers, including both single- and dual-chamber devices, for patients with rhythm disorders and conduction abnormalities. Dr. Katti holds a strong interest in peripheral vascular interventions, including renal and carotid artery stenting. These procedures are vital in preventing organ damage and reducing the risk of stroke in patients with peripheral artery disease. His approach integrates multidisciplinary collaboration, imaging-guided precision, and patient-centred care. He actively supports preventive cardiology by promoting lifestyle interventions, cardiac rehabilitation, and regular screening for at-risk populations. His holistic view of heart health ensures that patients receive not only immediate intervention but also long-term guidance to manage risk factors like hypertension, diabetes, and hyperlipidaemia. At Manipal Hospital, Dr. Katti works closely with emergency, intensive care, and surgical teams to provide round-the-clock cardiac support. His commitment to continuous learning and use of cutting-edge technologies ensures that patients benefit from the most up-to-date and effective cardiology practices. Dr. Prasanna Y Katti has several years of specialised experience in interventional cardiology, managing both elective and emergency cardiac procedures

at Manipal Hospital. Dr. Prasanna Y Katti speaks multiple languages, enabling him to offer compassionate and clear communication with patients from diverse linguistic backgrounds.

Fellowship & Membership

- Karnataka Medical Council
- Advanced Certifications in Interventional Cardiology.

Field of Expertise

- Coronary Angiography
- Coronary angioplasty
- Management of Acute Coronary Syndromes
- Peripheral Vascular Diseases
- Heart (Cardiology)
- Comprehensive Cardiac Care Covering Invasive and Non-Invasive Procedures
- Pediatric Cardiology Interventions
- Minimally Invasive Cardiology Treatments
- Emergency Cardiac Procedures
- CT Coronary Angiography
- Coronary Angioplasty
- Radial Approach Coronary Interventions
- Device Closure (ASD, VSD, PDA)
- Permanent Pacemaker Implantation
- Balloon Valvuloplasties (Aortic, Pulmonary, Mitral)

Languages Spoken

- English
- Kannada

- Hindi

Awards & Achievements

- Article: International Journal of Cardiology, Volume 106, Issue 3, 26 January 2006, Pages 355-359 V.subhash Chandra, M.Jayranganath and Anand R.Shenoy, et al.
- He has contributed to international journals, including an article in the International Journal of Cardiology.
- Recognised for his expertise in both clinical practice and academic contributions in cardiology.
